# Tree Inorder Traversal Function

```
Preorder(t→LeftChild);
printf("%d", t→data);
Preorder(t→RightChild);
```

# Tree Postorder Traversal Function

```
Preorder(t→LeftChild);
Preorder(t→RightChild);
printf("%d", t→data);
```

# Preorder Function

```c
void Preorder(struct BTNode *t)
{
    if(t)
    {
        printf("%d", t→data);
        Preorder(t→LeftChild);
        Preorder(t→RightChild);
    }
}
```
